---

Josh and his wonderful team provided a wonderful meal for our wedding on the 2nd July. We had a beef roast and 2 sharing tables. The food was 1st class. Our guests said "it was the best wedding food they had ever had". The trio of puddings were amazing and in the evening we had the street pizza oven. Everything was delicious. The staff were fantastic and from the start when we first met the team to the finish it was faultless. We would 100% recommend them.

Thank you again  
*Clive & Michelle Fletcher*

# Small *Plates*

---

*Small\_24/25*

Small plates service is a great option for events like cocktail parties, weddings, or corporate gatherings. It allows guests to sample a variety of flavors and textures without committing to a full meal. It's also a great way to encourage conversation and socializing, as guests can pass dishes around and try a little bit of everything.

When planning a tapas-style menu, it's important to consider the variety of dishes to ensure that there is something for everyone. A mix of meat, seafood, and vegetarian options is ideal, along with a variety of flavors and textures. Small plates can be served on individual plates or platters for sharing, and can be passed around by servers or placed on tables for guests to help themselves.

Overall, tapas-style dining is a fun and social way to enjoy a meal, and can be a great option for events where guests are looking for a more casual and interactive dining experience.

With our small plates menu, you won't opt for a starter or main or dessert, everything will be served with the flow just like a traditional small plates restaurant, then you can opt for your desserts to be last
